(f) The group health insurance program required under subsections (b) through (e) and subsection (k) must be equal to that offered active employees. The retired employee may participate in the group health insurance program if the retired employee pays an amount equal to the employer's and the employee's premium for the group health insurance for an active employee and if the retired employee within ninety (90) days after the employee's retirement date files a written request for insurance coverage with the employer. (2) When the employer terminates the health insurance program.

(3) Two (2) years after the date of the employee's death.

(4) The date of the spouse's remarriage.

(h) This subsection does not apply to an employee who is entitled to group insurance coverage under IC 20-28-10-2(b). (i) An employer may provide group health insurance for retired employees or their spouses not covered by this section and may provide group health insurance that contains provisions more favorable to retired employees and their spouses than required by this section. A public employer may provide group health insurance to an employee who is on leave without pay for a longer period than required by subsection (h).

(j) An employer may elect to permit former employees and their spouses, including surviving spouses, to continue to participate in a group health insurance program under this chapter after the former employee (who is otherwise qualified under this chapter to participate in a group insurance program) or spouse has become eligible for Medicare coverage as prescribed by 42 U.S.C. 1395 et seq.
